

Browser Requirements

Windows

ATA Sensors.com requires Netscape Navigator **6.2.3** or higher, Microsoft Internet Explorer **5.0** or higher, or other compatible browsers that support frames, Javascript, cookies and Secure Sockets Layer protocol (SSL). Using older browsers, non-compatible browsers or disabling browser features, such as Javascript, cookies and SSL, may reduce site functionality.

Macintosh

ATA Sensors.com requires Microsoft Internet Explorer 5.0 or higher, or other compatible browsers that support frames, Javascript, cookies and Secure Sockets Layer protocol (SSL). At this time, Netscape browsers are not supported. Using older browsers, non-compatible browsers or disabling browser features, such as Javascript, cookies and SSL, may reduce site functionality.

How to determine which browser to use:

Windows

From your browser, go to the Help menu and choose "About...." A screen will appear showing which browser and version you are using.

How do I upgrade to another browser?

Internet Explorer

Go to [Microsoft Internet Explorer Download](#). Instructions provided there will help you with download and installation.

Macintosh

From your browser, go to the Apple menu. Choose either "About Netscape" or "About Internet Explorer." A screen will appear showing which version you are using.

Netscape

Go to [Netscape Download](#). Instructions provided there will help you with download and installation.

If you are accessing ATA Sensors.com through a firewall or proxy, check with your Network Administrator to determine if cookies are permitted.
